

Please be advised that only test results from certified testers who meet certain minimum requirements will be accepted by the City of Tulare Water Department. In order to be included on this list, a tester has demonstrated that he or she is currently certified as a backflow prevention assembly tester by the American Backflow Prevention Association (ABPA), or California-Nevada Section American Water Works Association (CA-NV AWWA). This resource list is provided by the City of Tulare as a service to our customers seeking testers who meet our general requirements; it is not an endorsement of any firm, nor is it a guarantee/warranty of their work. It is provided to our customers without any obligation to use a specific tester. The City of Tulare has no financial interest in any listed tester. This list is non-exclusive, so there may be testers available who meet our requirements but are not on the list; however, any test performed by a tester not meeting our requirements will be rejected. The City of Tulare reserves the right to include or remove any tester from this list without notice or cause.

2020 Certified Testers for Backflow Assemblies		
Full Name	Company Name	Phone Number
