DATE OF DRAINING POOL: _____ DATE OF FILLING POOL: _____

REASON FOR DRAINING POOL: _____

Please make sure there is no detectable chlorine and the pH is neutral (pH no less than 7 or more than 8.5) before draining.

As of January 2008, all public pools drained and/or repaired are to have an anti-vortex drain cover or a dual drain installed.

As of July 2020, one pool draining permit is allowed every three years for built-in and above ground pools. Volume should not overwhelm surface water system.

Please return completed form for approval before proceeding with draining: City of Tulare
Water Division
3981 South "K" Street
Tulare, CA 93274
